

Quality Policy Statement

Date: January 2021

Revision: 2.2

Signature: C Houghton

Badman & Badman Joinery Ltd will, to the best of its ability, ensure that the products & services that it provides will conform to all applicable requirements, whether these are customer, certification, trade or legal obligations.

It is Badman & Badman's objective to be the regional market leader in its chosen business areas by meeting customer requirements, whilst making a fair and reasonable profit.

Badman & Badman will respond positively to customer communications and changing needs where these are within the capability of its business processes to satisfy. In addition Badman & Badman will seek to continually improve the product, service and business processes to meet these changing requirements.

Performance and quality improvement objectives are defined and reviewed by the senior management in order to monitor and drive continual improvement of products, services and this quality management system.

Badman & Badman demonstrates the effectiveness of its quality management system by maintaining certification to ISO 9001:2015 with a UKAS accredited certification body.
